

Uninstall Guide for Internet Explorer

GAIN's dealing system is a Java-based applet that utilizes Sun's Java Runtime Environment (JRE). The following instructions will UNINSTALL the Java Runtime Environment from your computer.

Screen shots have been included to aid you during this process. *If you require assistance, please call GAIN technical support at 1.877.GAINCAP or 1.908.542.0700.*

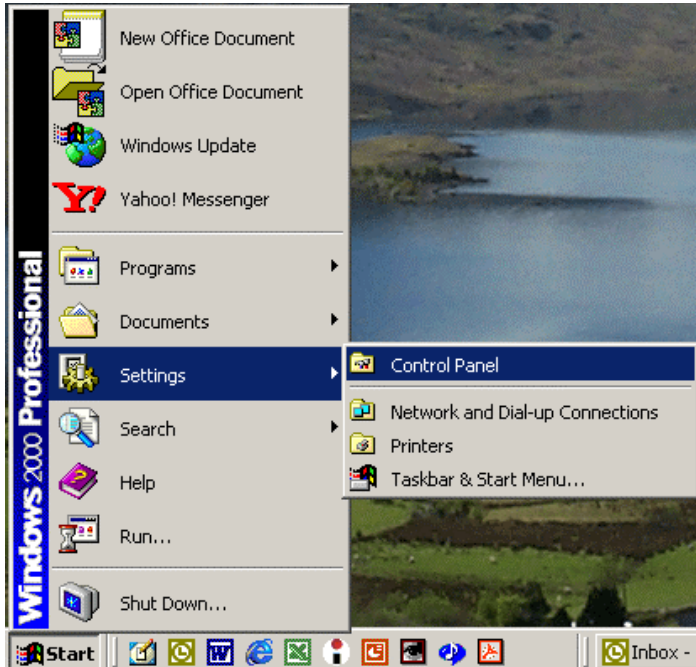

PLEASE CLOSE ALL APPLICATIONS EXCEPT FOR YOUR MAIL PROGRAM BEFORE STARTING THE INSTALLATION.

GAIN STRONGLY ENCOURAGES YOU TO PRINT THESE INSTRUCTIONS BEFORE PROCEEDING.

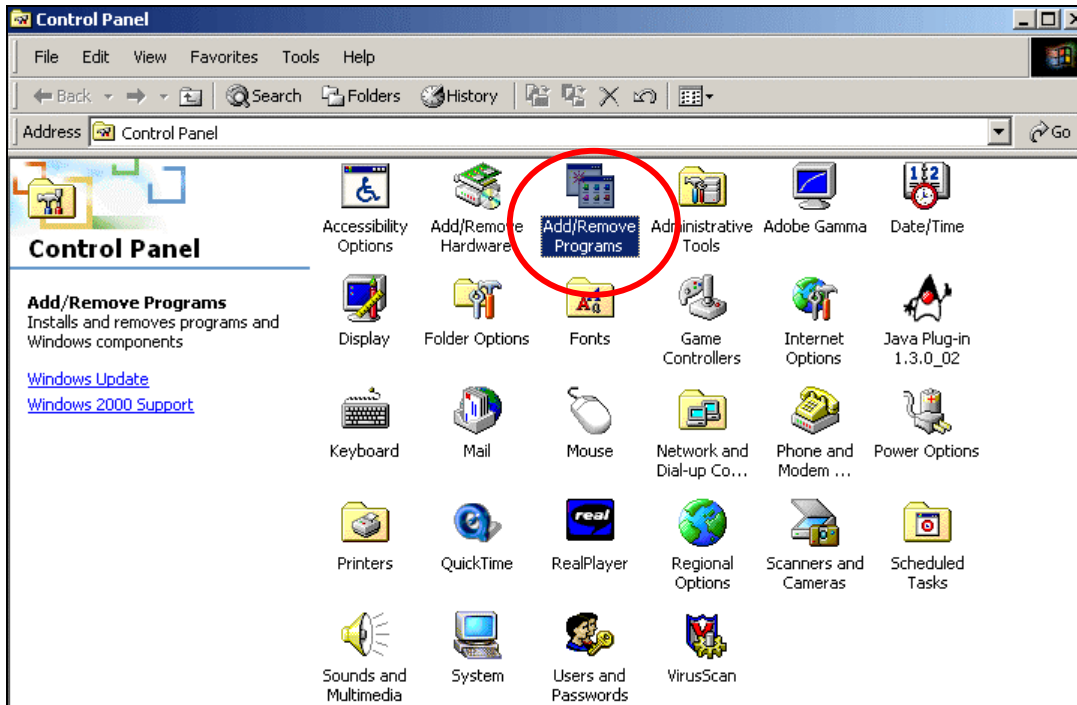

1. At the bottom left of your screen CLICK "**START**"

Scroll to "**SETTINGS**"

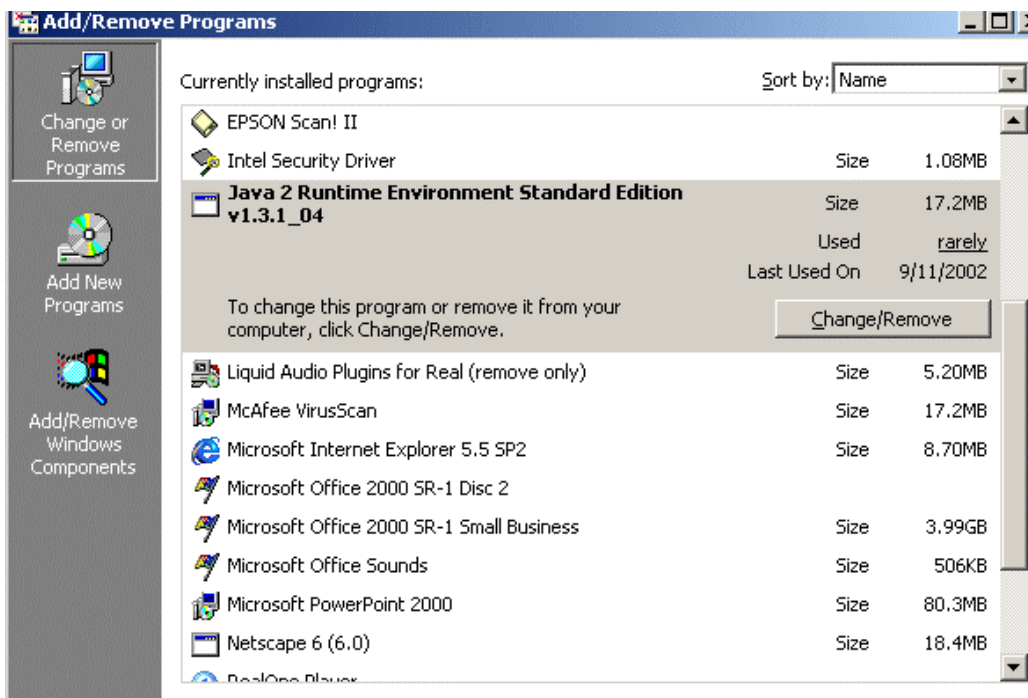

And scroll across to and then CLICK "**CONTROL PANEL**"

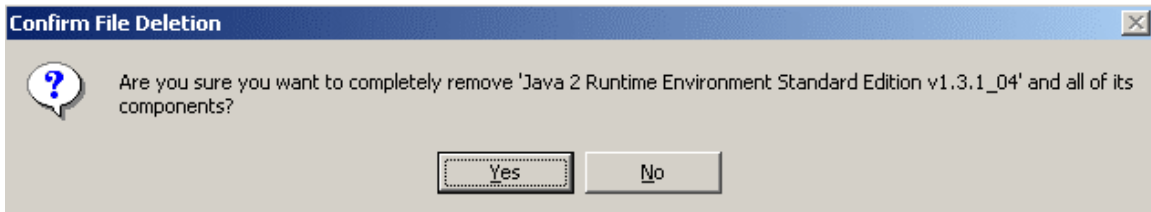

2. In the Control Panel window, double click on the icon for **"Add/Remove Programs"**

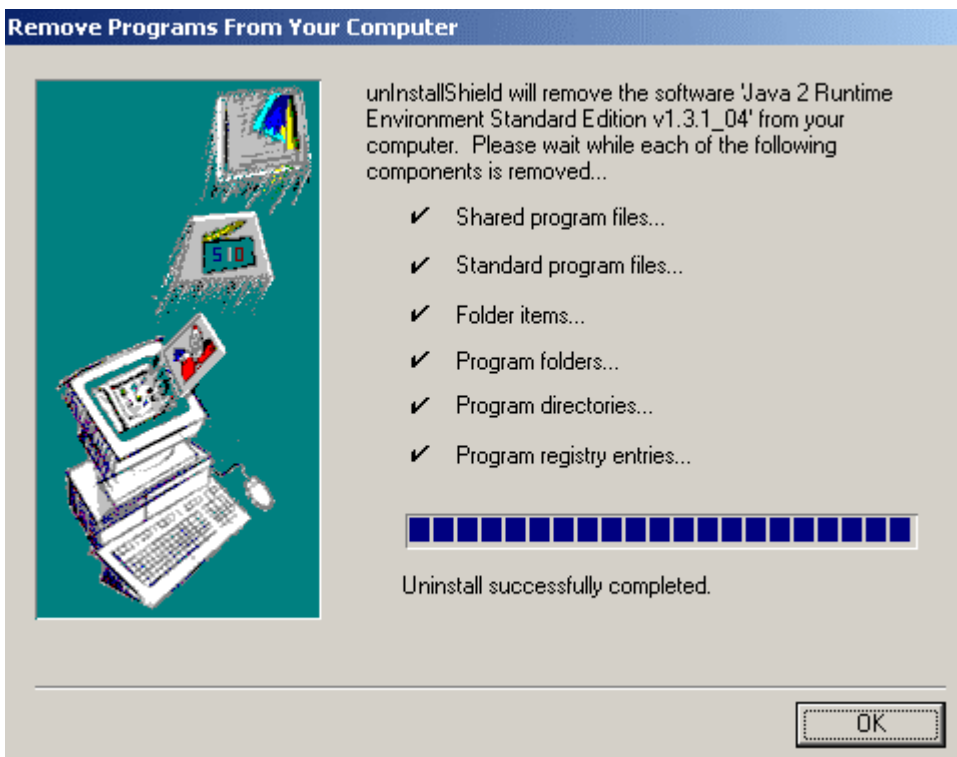

3. In the Add/Remove Programs window. Locate the **"Java 2 Runtime Environment Standard Edition V 1.3.0_04"** file. Click on **"Change/Remove"**

-
4. You will be prompted to confirm your request to delete the file. Click **"YES"**

-
5. Uninstall shield will run automatically and when this is complete you will see this screen:

Click **"OK"** to finish.
